Motion passed

Payment to the town of Gilsum Welfare- Deposit to go through Selectmen

Highway truck discussed- Bill rendered for on-site review of breaks, no fault found

Rock Swap- Police service provided

Cushing- In previous years police service has been provided by the Sheriff's Department and it has gone against our monthly allotment of hours. They also wanted to charge a premium.

I reached out to Eli Rivera to see if he and Ralph Jernberg could agree on the hours needed and if I could negotiate a deal with him. I have not been able to get in touch with him.

We can also negotiate with different towns personnel and pay them directly.

Louder- In the past supposedly things have turned up missing so the police have been trying to have a bigger presence because of that.

Betsy Cushing- The police tell the town the hours they have to patrol on a state road.

Secure email system- status

Cushing- Bruce Murphy and Sally Struble have received their login credentials.

Town Website-

Cushing- Struble has given all information needed to Keene Webworks.

Highway:

Mack Road completion status-

Cushing- I stopped in to DES to talk with Jessica Shaults who is overseeing our Mack Road project and she was not in. I have yet to hear back from her. She has all the photos needed. JP Trucking sent me an email stating that they went up and monitored the site after the storm event last week. Everything looked good.

Old Marlow Rd. plans, budgeting-

Cushing- I posted the bid at both the Post Office and the Town Hall. Hopefully we will have bids next week. The culvert is all in and paid for.

Vessel Rock Rd. permit-

Louder- I talked with Jon Buschbaum. He will come up with ~~fund~~ ^{estimate} for the first level of permitting and will call the state to see if any support can be given with the project. He will be getting back to me with more information.

estimate BEC

Zoning Board of Adjustments- Dicey's legal action

Cushing- Currently in the lawyers hands to resolve.

Conservation Commision meeting-

Louder- They had a forester in to discuss what loggers are permitted to do and that Selectmen have no choice but to sign permits. Documents should be sent over to Conservation to review. The forester has reviewed the Gordon Enterprise site, and will visit it off and on.

Town Hall maintenance-

Cushing- The UV light still needs to be done. Oil Change was done in the generator.

Louder- Since the parking lot tarring has been done the back doors to the library have a hard time opening. It may be best to cut the bottom of the doors and have them resealed.

Cushing- I will reach out to Sam Maguire about that.

Louder motions to adjourn
