Notes: (1) "p < 0.05" will result in "p < 0.01" if "p" denotes "less than". This report of analysis may not be modified in any way, or reproduced except in full, without written approval from Nelson Analytic, LLC. Results reported above reflect only the samples as submitted, unless specifically noted otherwise. Nelson Analytic, LLC is currently accredited by the New Hampshire Environmental Lab Accreditation Program, the Vermont Laboratory Accreditation Program, the Massachusetts Laboratory Certification Program, and the Maine Laboratory Accreditation Program. For a list of current accredited facilities, please visit the websites listed below. Sampling performed by the lab is according to the lab document "Nelson Analytic, Inc., EPA Standards for pH and Chloride in field parameters which should be tested immediately upon sample collection." Sampling for laboratory parameters is done by the laboratory per EPA methods. Metals samples may be analyzed the same day they are received. If "Samples" received at laboratory do not meet criteria, they will be re-analyzed.
